

Auto-Adjust Now Available

Now OKC's controls can assist you in optimizing your well production.

At OKC Products, we listen to our customers. Trying to sustain production in plunger lift wells is challenging. So we added an Auto-Adjust feature to our controllers which will increase the effectiveness of plunger lift wells by automatically adjusting cycle times to maintain and stabilize plunger arrival times.

PumpMate The cost-effective way to increase plunger-lift well production

See OKC's family of modular controls...

AeroMate – Configurable wireless sensors and controls

TripMate – Best selling plunger arrival sensor

TimeMate – Basic Timer
