

OKC's Versatile PumpMate™ 3X

The PumpMate 3x multi-function controller comes standard with three internal pressure sensors that allow you to monitor and control wells based on casing, tubing and sales line pressures. The PumpMate 3x is the ideal answer for a wide range of applications whether the application is for a basic, reliable well controller or a full-featured remote access and control system with data logging. The PumpMate 3x includes customizable application programs and display menus plus wireless connectivity to meet all your customers' needs.

PumpMate 3x

- Three 2000psi Sensors
- Custom Programming
- Wireless Networking
- 1x or 2x Valve Option
- Intrinsically Safe, C1D1
- Modbus RTU Protocol

OKC Products' Soap Stick Controller Application

Wells can overload with fluids causing poor performance. Soap Stick Launchers dissolve the liquid and optimize well production. OKC's Soap Stick Controller Application provides flexible manual and automated soaping.

- Eliminates trips to the well by programming preset drop times
- Schedules up to 16 drops/day, 7 days/week with any number of sticks in succession
- Data Displays — Drop status; Scheduled soap drops that have occurred; Total soap sticks used
- Manual drop override
