

## FRAC Tank Level Monitoring

OKC's devices have been certified by the Pennsylvania EPA as providing required reports and alarming for FRAC water monitoring. The OKC PumpMate manages tank level sensors to provide data logging, monitoring and remote access using web based applications that provide local and remote readouts.

## OKC Chooses NoShok Sensor for Products

To support quality and reliability in our products, OKC Products is now using the NoShok 300 Series pressure transducer as the sensor of choice for PumpMate and AeroMate products. NoShok sensors offer ruggedness and a compact size which is ideal where space is limited.

- High quality stainless steel construction for compatibility with chemically aggressive media
- Welded design with no internal seals or gaskets
- Excellent EMC protection –compliant with EN 61326
- RoHS compliant
