

## Cloud Control

OKC's remote monitoring and control products keep your customers connected remotely using ScadaLynx ... a powerful Cloud-based SCADA solution for well production monitoring. Monitor gas or liquid flow, compressor performance, pipeline integrity, tank levels, artificial lift performance and more. eLynx uses pre-engineered, user-configurable solutions for real-time production monitoring and control.

- no SCADA software to purchase
- no existing SCADA replacement
- no field hardware to change
